Machined, Deep Black High Gloss Front Wheels

Lots of Storage

THIS BABY IS BAD!

The cruising riding position of the Spyder F3-S – customized just for you with the new UFit System – enables you to sit back and confidently take in the scenery...or the stares from onlookers. They'll look extra long at the machined deep black high gloss front wheels, red accents and added fender lighting. And with its Rotax 1330 ACE engine, Y-frame design and seven automotive technologies, you can count on a thrilling and confident ride.

This is one of the nicest and well-maintained (and coolest) Can-Am's we have had the pleasure to have. This motorcycle is exceptional in mechanical and cosmetic aspects. As far as we can tell, there has been no paint or bodywork done on this bike. We have both keys. There are no scratches, no dings, and no sign of wear anywhere on the Spyder.
