2013 Chevrolet Silverado 2500 HD LT

This Silverado is looking fresh with brand new wheels and rotors. It is tuned and has a def delete, therefore it is not inspected. An aftermarket intake from Wehrli Custom Fabrication gives a performance boost. This 6.6L turbocharged Duramax produces heavy power before the tune, starting at 397 horsepower and 765lb-ft of torque. Coupled with an Allison Transmission this beast can now tow more than it's factory capacity which was 13,000 conventionally or 17,800 with a 5th wheel.

We put brand new 18" black Moto Metal wheels on the rig and they're wrapped with Cooper Discoverer tires. This has a little more space than a regular cab with an extended second row and assist steps for ease of climbing up into the cab.

The LT trim comes with a nice mix of cabin features that separate you from the base models. A trailer brake controller comes from the factory on the dash. This is a diesel at a great price point for the market. Come check it out today!
