<<COMMERCIAL FINANCING IS AVAILABLE >>

Ergo Prime Design Ladder Rack Concept:

>> ErgoRack is designed to:
> Reduce muscle stress, eliminate risk of injury and speed the job of loading and unloading ladders from a work van
> Easy to use; It deploys or stows in a few seconds
> The hydraulic cylinder provides smooth, controlled ladder deployment and stowage. Cylinder is adjustable to accommodate ladders of different sizes, weight, and seasonal temperature changes
> The asymmetric movement of the ladder rack reduces the pull force applied to the handle to move the ladder by 50%. This means you'll be able to move a 120 lb ladder with the same physical exertion as moving a 60 lb ladder with a Horizontal Rotation.

<< Commercial Financing Available >>
