Vehicle Description

2004 MINI Cooper S Works Package Car, Sports, Premium, and Cold Weather Packages. As New, Only 3800 Miles!

Auto Fitness / Classbenz contact Jim @ 818-648-5223

When the New MINI was introduced by BMW in 2002 there was some doubt as to whether a small car could be successful in United States. The MINI Cooper and Cooper S have been successful beyond anyone's (including BMW's) imagination! There has been a waiting list for the cars since their introduction and most new MINI'S sell for well over sticker. With its unique looks inside and out and strong performance (especially in the "Cooper Works" version) the MINI has been a resounding success in this country. Our featured car is the desirable "S" John Cooper Works version. It features the supercharged 168 H.P. engine boosted to 210 H.P. with the Cooper Works Package which provides great performance (0 to 60 in 6.2 seconds) The "Cooper Works" version provides the crisp handling that the MINI's are known for. The Cooper Works package is a comprehensive performance upgrade which really turns the performance up on this MINI. The Works car is a full second faster to 60mph than a regular Cooper S.

The Cooper Works Package developed by the factory includes a high flow cylinder head, mated to a JCW exhaust system which sounds great. Also included is an Eaton sourced JCW supercharger with recalibrated engine management to match the improved air flow. A new intercooler surround and special badging complete the package.

The cost to upgrade was approximately \$8,000.00 including parts and labor.

Along with the Works Package upgrade, Our featured car has many options including the sport, premium, and cold weather packages, (upgraded Hamann 18 in 3 piece rims and tires) sport tuned suspension, specially contoured leather sport seats, bluetooth (Parrot system) connectivity and a factory alarm system (turn signal stalk flashes when alarm is turned on with the key). Factory fog lamps and John Cooper Works threshold plates have also been installed. The premium package: includes Leather Seating, a Panoramic Moon Roof, Climate controlled A/C, and on board computer. The multi-function steering wheel was up graded to a 2005 three spoke steering wheel, which looks much better than the original two spoke wheel. The MINI also has leather seats and heated seats (what a great option!) This MINI has an Dark Silver metallic exterior, white top and mirrors, with a beautiful gray leather interior, making it one of the most desirable color combinations. With mileage of only 3800 miles, this as new Mini looks and drives great. The paint is in excellent (perfect) condition. The (smoke free) leather interior is also in excellent condition. What a great opportunity to own this future classic at a fair price. Do not forget the great gas mileage (36mpg highway) that goes along with fun motoring. The MINI really lives up to its reputation of being a premium brand with amenities only found in many luxury cars. Add in the fun quotient of driving the MINI with Works Package along with the great gas mileage and you can see why the MINI's have been so popular. The Cooper Works cars of this generation MINI are far and few between. Factor in the super low mileage and you have a very special MINI.

Here is a great opportunity to put this exceptional MINI Cooper S Works Package car in your driveway.

We often close auctions early with a phone call. We can also assist with any of your shipping requirements. Thanks for your interest. Please call Jim at 818-648-5223 with any questions.
