Vehicle Description

1961 MGA 1600 Sports Car This is a car that was put in storage for over 22 years because of a 2nd gear transmission problem. The car was taken out of storage about 10 years ago and all the mechanics were gone through and it was repainted to its current color.. This is a very complete original car with everything present and can be driven anywhere you want to go. Very low mileage because of the 22 years in storage which is rare for these cars. It is not a trailer queen but is nice enough for all but the most critical eye. This is a car that you can get in and go anywhere with confidence and style. All the chrome and stainless is in excellent shape. If you ever wanted to to do a 100 point restoration this would be the car to do it with. It is complete and is rust Free. Real knock off wire-wheels compliment the period look and correctness. The car comes with the original tool kit, now how many of those have you seen?
