This is one of the nicest and well-maintained Ducati's we have had the pleasure to have. This motorcycle is exceptional in mechanical and cosmetic aspects. As far as we can tell, there has been no paint or bodywork done on this bike. We have both keys, the owners manual, and the tool kit. There are no scratches, no dings, and no sign of wear anywhere on the motorcycle.

The previous owner upgraded numerous pieces on the bike. Any of the original parts that were removed are sitting in a box (everything is pictured) and they do come with the bike.

**** Please Note **** The motorcycle does not come with the stand as shown in the pictures.

A raised set-up, forged Marchesini rims, fully adjustable suspensions with an ultralight Marzocchi aluminum yoke and Öhlins rear shock absorber for an extraordinary dry weight of 377 pounds. ABS and Ducati Traction Control as standard, so you can concentrate on having a good time. And the incredible Ducati Corse livery underlines the fact that the Hypermotard SP is an uncompromisingly sporty bike, ready to face any challenge.
