Premium Wood Trim

SUPER NICE!

This is one of the nicest and well-maintained older Limos we have had the pleasure to have. This vehicle is exceptional in mechanical and cosmetic aspects. As far as we can tell, there has been no paint or bodywork done on this car. We have both keys; including both keyfobs and all of the owners manuals.

This limousine has been in light service up until the day we bought it.

The vehicle belonged to a family friend who owns a local funeral home. They were simply upgrading the limo to a new model. This vehicle is in excellent condition. They had a special garage built for the limo to fit in, so it was always inside. This is a 2-owner Cadillac with a CLEAN CARFAX. The 1st owner was in Alabama. The second owner purchased it in January 2008. It has been here locally ever since.

I am happy to answer any questions you might have. I am assuming Federal Limousine built the vehicle (since there name plate is on the back of the car). Everything seems to work. Both A/C units are cold. The privacy partition goes up and down as designed. There is a cooler built into one of the rear doors. There are cup holders built into the opposite door. There is a removable floor console that has an ice bucket and cup holders as well. From the back seat you can operated the A/C, stereo, console lighting, and the glass partition.
