Here we have for you a 1967 F100 that has done a great job avoiding trouble over the years! It is a short bed regular cab that has a solid body including the floors, fenders, and bed. The wheels are in great shape wrapped in new Goodyear Wrangler tires. Under the hood is a 390 CID Ford engine with an HEI distributor, new plugs and wires, Holley carburetor, K&N air cleaner, and headers that lead to glass packs turned out in front of the rear tires. An automatic 3 speed transmission makes life easy and the bench seat is in great shape. A Bosch tachometer sits on top of the steering column and this truck sounds awesome at idle. These trucks look great lowered, but the factory ride height of this blue beast grows on you fast! Classic car financing is available and trades are welcome! We'd love to see it go to another great home, so come check it out!
