Included with the car is a binder with detailed photos of the build along with a drawing by Dave Holls of this Cadillac with it's modifications. Dave Holls was a designer with GM during the Cadillac Eldorado production in the 1950's. The owner of this car had the pleasure of meeting Mr. Holls one evening for dinner, where he drew a rendering of the hot rod for the owner and signed the drawing. It has been framed and will be included with the car. Mr. Holls retired from GM in 1991.

-BELOW IS THE HISTORY AS TOLD BY THE PREVIOUS OWNER-

“El-da Rod-o” South Star

1 of 700 (+/- 57-58) Eldorado Brougham's constructed by Cadillac. This car was located in Central Florida in rather rough condition, with no engine or transmission. Wanting a modern powered “Hot Rod” it was decided to modify the original frame to contain a front drive “Northstar” drive train and rear suspension clip. Body modifications were necessary to change the wheel location in the front and reduce the huge bumper “Dagmars”. Adam's Rod Shop in Palm Beach started the construction in 1996 and initial driving started 2001. Equipment included the Northstar Engine and transmission from a 1998 Cadillac, as well as rear suspension clip, on air bags. A full leather interior, updated to modern style. The exterior is modified with drenched doors and deck lid, and painted with a beautiful “Black Cherry” by P.P.G. for an impressive package with all the style of the original Brougham. Custom wheels, modern brakes, offer the best of both worlds in the one of a kind El-da-Rod-o Southstar.
