This 2017 KTM RC 390 ABS RC 390 ABS features a 390 cyl engine. The vehicle is ORG with a ORG/BLK interior. It is offered As-Is, extended warranty is available. - 2017 KTM RC 390 ABS - This KTM is in Excellent overall exterior condition - ABS, fast, the Moto3 genes are perceptible in every manoeuvre and convey pure race feeling. The handling - simply spectacular. The performance - incredible. The power - awesome. Features may include: SEAT The two-part seat offers first class supersport ergonomics with perfect support for rider and pillion. With a seat height of 820mm enables the rider to have a secure stand while also being high enough for sporty use and real big-bike feeling. For MY 2016, rider's seat will be even more comfortable with 12 mm thicker cushion. HANDLEBAR The clip on handlebars and switches contribute to a sporty and aggressive riding position combined with advanced control. HAND LEVER For MY 2016 the clutch and the brake lever are adjustable, 5l reserve) has been developed for the RC, perfectly matching the supersport style and vehicle design, together with rider ergonomics. Thanks to the economic engine, the RC achieves even in the sportiest manner of riding a considerable range. WINDSHIELD The advanced design windshield in combination with the aerodynamic optimized motorcycle front ensures incredible wind protection for rider's chest and arms. BODYWORK The brand new bodywork, footrests and pedals not only provide a unique supersport look but also help the RC to master extreme cornering by allowing a greater leaning angle. HEADLIGHT The twin headlight opens a new direction for KTM style and perfectly matches with the racing supersport look of RC. THIN TAIL Fitting perfectly into the pure racing look, the number plate holder rounds KTM's high performance bike off. INTEGRATED BLINKERS As a special feature, the RC incorporates blinkers into the mirror structure, which not only look sporty but also contribute to the perfect aerodynamics. ENGINE The state-of-the-art, liquid cooled, single-cylinder, four-stroke 375ccm engine with twin overhead camshafts, four valves and electronic fuel injection, already equipped in the Duke 390 provides outstanding power and thanks to the balancer shaft, Nikasil-cylinder-coating and forced feed lubrication with power-promoting body-evacuation and you get an engine which provides a remarkable 44hp. The engine is equipped with an electric starter powered by a 12V/8Ah battery. SLIPPER CLUTCH Saves power, helps in slides: The new slipper clutch not only opens when the engine back-torque becomes too high, it also closes with the force of the clutch springs when you open up the throttle. The former prevents annoying rear wheel chatter when braking sharply or decelerating - and gives the wheel just that bit of braking for a controlled rear wheel slide. The latter allows the clutch to be pulled and controlled with the little finger - which saves energy when riding. - Contact Motorcycle Sales at 888-933-7674 or bob@usedmotorcyclestore.com for more information. -
