<b>Mileage:</b>	91,869
<b>Drivetrain:</b>	Front Wheel Drive
<b>Economy:</b>	City 22 / Highway 30

If the name is familiar, it graces a completely new vehicle for 2008. Compared to the previous model, the 2008 Malibu LT is a bit larger, for increased comfort, but is still solidly in the middle of mid-sized. That means new styling and much-improved fit and finish inside and out. Legacy powerplants are gone, no more iron pushrod engines.

Take a look at our pictures and feature list and prepare to be impressed!

A full complement of airbags - front, front-seat side, and side curtain - are standard in our Malibu. This LT model has the StabiliTrak stability control system.

The suspension deals with poor road surfaces very well, and spring and shock rates are correctly-matched so response is quick. It can be driven in a spirited manner or used as a sedate commuter. Print this page and call us Now... We Know You Will Enjoy Your Test Drive Towards Ownership!
