One look at the Tri Glider Ultra motorcycle and you'll have your answer. The 2015 Harley-Davidsonr Trike motorcycles provide you long-haul comfort and confidence. As part of Project RushMore, for 2015 the Harleyr Tri Glider Ultra has been totally redesigned. The new twin-cooled high output Twin Cam 103T engine is built to deliver more power for passing, clearest speakers ever in a Harley-Davidsonr motorcycle. The luggage spaces have been redesigned with more space inside, a sleek new look outside and new latches that can be operated with one hand. The iconic batwing fairing has also been changed to reduce head buffeting without losing its distinctive, brighter Tour-Pakr lighting, brighter turn signals, brighter brake lights, and a steering head with stiffer front forks. Locked-up tires are now history even when there's wet pavement. We've made it feel even better to lean your way through a turn. Now you can see better. And we've made you more conspicuous to the cage-driving public. Because one thing we all agree on is this: bikes that work better make riders who ride better. Take a ride. See how good you can be. Project RUSHMORE - InfotainmentMore sound. Purer sound. Big, full-color touch screens. Switches that are located where you intuitively want them to be and can reach without removing your hands from the grips. Voice activation for your music, road and highway ever laid down in pavement. Experienced riders and passengers putting in long hours in the saddle and giving us feedback on every aspect that contributes to comfort on the road. Airflow, heat management, passenger space, back rests, seat textures, legroom and hand controls all went under the hard microscope of the road and got tested and re-tested by real riders and worked and re-worked by us until we were satisfied we had built the most comfortable machines on the road. We all want to go farther, and when you and your passenger are more comfortable in the saddle, developed and tested to the highest standards of the Motor Company and backed by over a hundred years of touring mastery. This is not a bolt-on, aftermarket Trike kit. It's engineered and road-tested as a whole. Every inch is integrated for comfort, cargo and confidence. From the smooth, classically designed lines to the front-to-rear matching paint, the Tri Glider Ultra model has the bloodlines of a true Harley-Davidsonr motorcycle through and through. - Contact Motorcycle Sales at 888-933-7674 or bob@usedmotorcyclestore.com for more information. -
