It is offered As-Is, extended warranty is available. - 2015 HARLEY-DAVIDSON ELECTRA GLIDE ULTRA LIMITED LOW FLHTKL - This Harley-Davidson is in Excellent overall exterior condition - ABS, 2015 Harley-Davidsonr Ultra Limited Low The farther you go on a motorcycle, the better it gets. Whether riding one, brighter turn signals, brighter brake lights, and a steering head with stiffer front forks. Locked-up tires are now history even when there's wet pavement. We've made it feel even better to lean your way through a turn. Now you can see better. And we've made you more conspicuous to the cage-driving public. Because one thing we all agree on is this: bikes that work better make riders who ride better. Take a ride. See how good you can be. Project RUSHMORE - Engine As every rider knows, the engine is at the heart of the experience of riding a motorcycle. The amount of torque and horsepower it delivers over the RPM range is in direct proportion to the feeling it gives you when you roll on the throttle. We know what riders want from a motorcycle engine because we've been building them for 110 years. Project RUSHMORE gave us the opportunity to dial it in just right. We conducted thousands of road tests with real riders giving us feedback to build the next iteration of the legendary Harley-Davidsonr engine. The consensus was: We want more. More low-end torque, more passing power, more perfection in the tone of the exhaust note, more of the feeling we ride a motorcycle for. And last year, we unveiled the engines that deliver it. This is the next level of Harley-Davidsonr V-Twin engine. And it proves, once and for all, the customer is always right. Project RUSHMORE - Infotainment More sound. Purer sound. Big, full-color touch screens. Switches that are located where you intuitively want them to be and can reach without removing your hands from the grips. Voice activation for your music, road and highway ever laid down in pavement. Experienced riders and passengers putting in long hours in the saddle and giving us feedback on every aspect that contributes to comfort on the road. Airflow, heat management, passenger space, back rests, seat textures, legroom and hand controls all went under the hard microscope of the road and got tested and re-tested by real riders and worked and re-worked by us until we were satisfied we had built the most comfortable machines on the road. We all want to go farther, and when you and your passenger are more comfortable in the saddle, you can. - Contact Motorcycle Sales at 888-933-7674 or bob@usedmotorcyclestore.com for more information. -
