Mosport green exterior with green vinyl interior and tan convertible top. Original matching numbers 327 350hp with 4 speed transmission. The 4 speed in the car is not the original but the original disassembled transmission does come with the car. For better shifting the owner added a Hurst shifter and linkage but the original shifter and linkage is included. Aftermarket steering wheel was added for easier entry and exit but original steering wheel is included. Reproduction real knock-offs and side pipes. Hardtop included. All gauges work. Original AM/FM radio works as well as the power antenna.

Purchased 13 years ago by the wife of the current owner as a surprise gift for his 50th birthday (he was surprised!). She had it painted at that time and added the knock-off wheels and gold stripe tires. The paint still shows well with a few nicks and a crack in the paint on each door near the handle. The side-pipes were already on the car. She purchased it from a local Corvette shop and does not know much about the prior history. Runs and drives great.
