We purchased this trailer used so we had something to haul our scrap to market with. We have hauled hundreds of loads with this trailer. Selling because we no longer haul loads of scrap anymore, we just have crushers come here to crush us out. When we purchased the trailer it was missing landing gear. We had a big sheet of steel we put where the landing gear was to re-enforce the trailer. Through the years we have also replaced some airbags, made patches. Door closes nice will need some repairs(patches on runners and some i beams underneath).

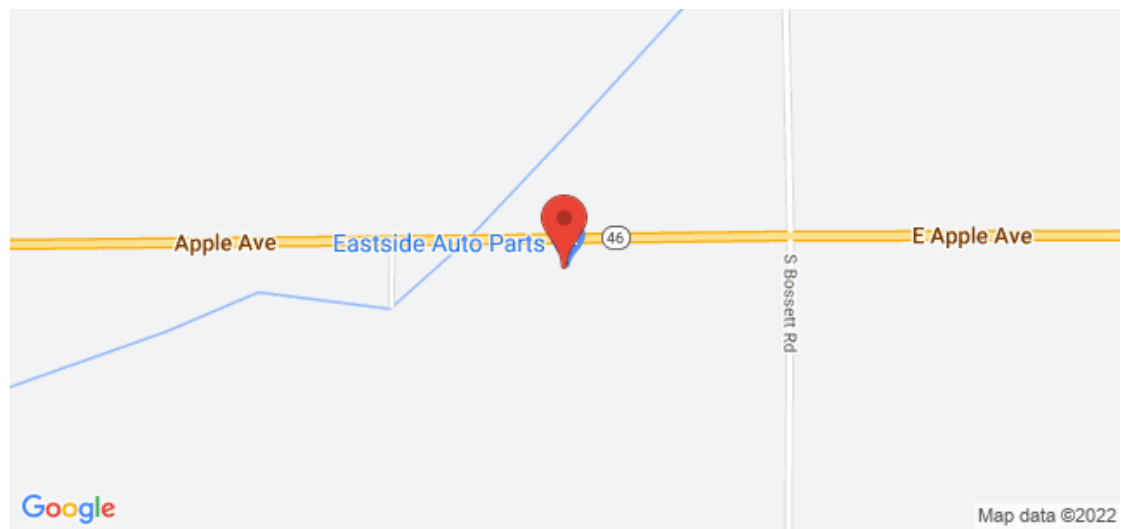

Trailer can still be dropped and hooked up. Need to pull up close to trailer with tractor, hook up air lines then pull underneath. Trailer is 48 foot long, has 8 foot high sides and open top. Dayton wheels with 10-20 tires
