We've taken everything that was great about the Softail Slim® and added a little more. For starters, we've added power with a Screamin' Eagle® Air-Cooled Twin Cam 110B™ engine. Black triple clamp and riser, gloss black headlamp ring, fork slider covers and lower forks. Black brake levers, mirrors and black over/under shotgun exhaust with slash cut muffler. Every inch is modern power with old iron attitude.

The classic look of a hardtail and the comfort, handling and rideability of a modern motorcycle combine seamlessly in Harley-Davidson Softail models to deliver a smooth ride. The entire Softail® family is reinvigorated with exciting performance upgrades and updates for 2016, including the High Output Twin Cam 103B engine, electronic throttle, and standard or available electronic cruise control. Limited-edition Fat Boy® S and Softail Slim® S models combine rich finishes with the Screamin' Eagle® Twin Cam 110™ engine to deliver a complete package of big power and cutting-edge style to riders who want to stand out.

Nothing gets more respect on the street than power. So when we built the new Softail Slim® S, we loaded it up with the most powerful engine you can get in cruiser this year.

Thank you so much for taking the time to check out our inventory at Mike Bruno's Northshore Harley-Davidson. We pride ourselves in operating differently than other stores and in completely satisfying every customer that gives us the opportunity to earn their business. We will do the following when you're here:

- Evaluate your preferences for Fit, Function, Style, and Performance to make sure you're 100% satisfied with whichever bike you pick!
- Show you more than enough information to make an informed decision.
- Treat your time with respect since we recognize it as the most valuable asset we have.
