Reviews:

* Any of the LS variants is built with a comfort bias, which isn't a bad thing in a luxury sedan. And if - in making an investment north of \$70,000 - you care to hold onto it past the payment period, there's a lot to be said for older Japanese vis-a-vis older German. Lexus holds its high resale value, in part, because of better long-term reliability. Source: KBB.com

* Serene ride; impeccable construction; smart electronics features; limolike options for the rear seat. Source: Edmunds
