2018 Harley-Davidson® Softail® Street Bob®

Straight-up, two-fists-in-the-wind attitude and no extra fat are the ingredients that went into the all-new, blacked-out Street Bob® motorcycle.

Features may include:

- Stripped-Down, Raw Bobber Style

Features mini-ape handlebars, laced wheels, and dark finishes.

- All-New Softail® Frame

A lighter, stiffer frame (compared to previous Softail and Dyna models) that takes the idea of form and function to a place it's never been before. It's the look of a hardtail from a bygone era that delivers a thoroughly modern ride.

- Milwaukee-Eight® 107 Engine

A powerful, smooth-running Big Twin engine with crisp throttle response and a pure, soul-satisfying rumble.

- Minimalist, Modern Technology

You get digital instrumentation, keyless ignition, a USB charging port, and Signature LED forward lighting.

- High Performance Front Suspension

New suspension technology provides the performance of a racing-style cartridge fork for reduced weight with linear damping characteristics.

- High Performance Rear Mono Shock

All-new easily adjustable mono-shock rear suspension allows for dynamic cornering capability while preserving the hardtail look.
