Reviews:

* When function and form are treated as one, engineering is elevated to an art form. The Mazda6 is the product of engineer and designer working in unison, daring to reimagine the automobile as a whole. It is the true definition of the modern sports sedan. The 2.5L SKYACTIV-G gasoline engine pushes the boundaries of innovation even further. Mazda engineers increased its torque output to 185 lb-ft, all without compromising fuel efficiency. Combine it with the ultra-responsive 6-speed SKYACTIV-MT manual or the smooth 6-speed SKYACTIV-Drive Sport automatic transmission and the result: 184 horsepower and an astounding EPA-estimated 38 MPG hwy (Up to 40 MPG hwy with Grand Touring 2.5L with AT and Technology Package). It all begins when you slide into the luxurious driver's sport seat and fire up with the push button start. With Mazda's newly available Commander Switch, you can control the available navigation system, sound system and Bluetooth phone and audio streaming conveniently from the center console. Other available features include leather trimmed upholstery and heated sports seats. The available fully integrated navigation system with a 7-inch touch-screen display features intuitive voice recognition. Crisp, immersive sound is delivered through an available 11-speaker Bose Centerpoint Surround Sound System with AudioPilot ambient noise compensation technology. With the SKYACTIV-Body, SKYACTIV-Chassis and intuitive safety technologies, Mazda6 is built to protect. Safety features include six standard airbags, should the airbags deploy standard E911 notification uses Bluetooth and your paired phone to call 911 automatically. Available Blind Spot Monitoring uses motion-detecting technology to scan your blind spots. Source: The Manufacturer Summary

* Smooth and responsive powertrain; quick acceleration; excellent fuel economy; sporty handling; well-built interior with top-quality materials; stylish looks. Source: Edmunds

Installed Options

Interior
