### Reviews:

\* Regal road presence; no-expense-spared materials; peerless craftsmanship; impressive performance; tranquil ride; seemingly infinite customization options. Source: Edmunds

\* Imposing looks and dimensions; a cabin fit for royalty; serene ride; handles surprisingly well for a 3-ton convertible; limited wind buffeting with top down; extensive customization options. Source: Edmunds

\* Every Rolls-Royce Phantom is hand-built at the Home of Rolls-Royce at Goodwood in England. Instantly noticeable are the elegant Adaptive LED Headlamps, which feature a continuously lit bar running through their center. As are the forged alloy wheels with a new fully-polished finish. The clear and uncluttered dashboard fascia belies the amount of the latest technology you now have at your fingertips with Phantom Series. The rear coach doors are an extraordinary feat of engineering. Together with the virtually flat floor, they enable you to enter and exit the rear compartment with grace and ease. Plus, you can listen to your favorite CD on the LoGIC7 audio system, which surrounds you with some of the most acoustically perfect sound you will hear outside of a concert hall. Phantom features a new infotainment system to make every journey more enjoyable. The new 8.8-inch front monitor gives you a clear view, whether you're using the new hard drive-based Navigation system on the road or watching a DVD while stationary. Plus, the smartphone cradle, USB and Aux-in options all offer improved connectivity to keep you in touch with your world. The new eight-speed gearbox, coupled to the 6.75-litre V12 engine, offers acceleration so smooth it feels as if you have an infinite first gear. The new 8-speed gearbox offers a greater choice of gears and reduced CO2 emissions with better fuel consumption. The two additional gears accentuate the feeling of smooth, endless acceleration from standing or at speed. There is also a host of safety options to ensure that you and your passengers are always protected. There is traction control and a stability control system to make sure that you are in control at all times. Rear child safety door locks allow you to put away your concerns for you children opening the door while the vehicle is in motion. Finally, front and rear active head restraints keep your head protected in the event of a rear collision. Source: The Manufacturer Summary
