Vehicle Description

VERY LOW MILES! At just 8047 miles, this 2017 KTM provides great value. This KTM is in Excellent overall exterior condition - ABS, <h3>2017 KTM 1290 Super Adventure R</h3>UNSTOPPABLE<p>True adventure takes guts, so KTM's rally experts brought out the big guns and packed 1.301cc, 140 Nm of torque and 160 hp into the world's most advanced Travel Enduro chassis. This makes for a mile-munching omnivore, ready to carve its name into any terrain – the tougher, the better. It is our most extreme ADVENTURE ever, the ride-by-wire limits the throttle response and peak power, putting you in full control wherever you take your bike. Offroad TC is enabled at the same time. Some serious trail scorching awaits.</p>THE BENCHMARK<p>The KTM 1290 SUPER ADVENTURE R sets new performance standards: 160 hp and a weight of only 240 kg (ready to ride - fully fueled) produce a power-to-weight ratio previously unheard of in this class. The dynamics are stunning. At the same time, the powerful yet cultivated engine enables either particularly relaxed riding or, if required, super-sporty propulsion – with every conceivable level in between. The chassis combines lightness with outstanding geometry and suspension, which, together with every electronic riding aid we could muster, allow undreamed of riding pleasure in all conditions, very fast.</p>MULTITALENTED<p>Laid-back touring? No problem. Scorching up and down the backroads? Yes, please. Feel free to throw in a big, bad stretch of dirt on the way. This extremely wide application range is made possible by the ground-breaking electronics package featuring Bosch MSC. And what's particularly impressive is that the KTM 1290 SUPER ADVENTURE R's different guises result in virtually no perceptible compromises. When you ride relaxed, the bike follows suit. There is no overly sharp responsiveness or a taut chassis setup. But if you do want to turn up the wick, a bone-shaking track, winding curves or simply the urban jungle, the KTM 1290 SUPER ADVENTURE R is the ultimate Travel Enduro for adventures on all the world's roads. From the backyard to the outback.</p>ERGONOMICS<p>At KTM, individualists are welcome. The bike's ergonomics can be adjusted to suit the preferences and stature of any rider, wherever they may roam: Two handlebar clamping positions: horizontal +/- 10 mm, Two footpeg positions: 10 mm up and back (diagonally), Hand levers with 5 reach settings</p>ADJUSTABLE WINDSHIELD<p>The windshield's height can be changed as quickly as you can change your mind, so the seat has to provide support, feedback and freedom of movement. Thanks to KTM's state-of-the-art 3D foam padding, the KTM 1290 SUPER ADVENTURE R has your back. No matter if you ride it to the local shops or the ones across the Sahara, both rider and passenger will get there in comfort.</p> - Contact The Internet Sales Department at 888-933-7674 or harley@usedharley-davidsonmotorcycles.com for more information. -
