This Harley-Davidson is in Excellent overall exterior condition - 2013 Harley-Davidson V-Rod Night Rod Special The 2013 Harley-Davidson Night Rod Special VRSCDX model is an imposing high performance ride. This power motorcycle cruiser has an ergonomically-designed, low-rise drag-style handlebar that places you in an aggressive but comfortable riding position. The H-D Night Rod Special model's exhaust has dual Harley mufflers with black end caps. Exhaust shields are also found on the VRSCDX Harley model's exhaust. This motorcycle muffler system proves that a performance exhaust can still be a beautiful set of pipes. In addition to the beautiful Harley exhaust, the H-D Night Rod Special model VRSCDX has an ultra wide rear tire – exactly what you want on the back of your power motorcycle cruisers. Check out the pictures of this power cruiser and discover why this power motorcycle cruiser stands out from the rest. Also take a look at the other V-Rod power motorbikes and learn more about other Harleys such as the Softail Fat Boy Lo, one of the other custom Harley motorcycles. Double-Barrel Exhaust The Night Rod Special motorcycle proves that a performance exhaust can still be a beautiful set of pipes. The double-barrel exhaust features brushed finish dual mufflers, black end caps and exhaust shields. Performance and bold style erupt with every crack of the throttle. Fat Rear Tire Behold an ultra-fat, 240mm rear tire for a powerful, no-nonsense look and added grip. Harnessing explosive, off-the-line power, the rear tire on the Night Rod Special motorcycle enhances the pure dragster look with the sticky, high-performance tread you need for staying glued to the pavement. Low-Rise Handlebar Grab the slammed blacked-out drag-style handlebar for an aggressive riding position—slightly forward and reminiscent of tearing up the racetrack, but easily within reach for plenty of riding comfort along with that attitude. Radiator Design Every inch of a Harley-Davidson motorcycle is created to sync up with the bike's overall look and performance. The Night Rod Special is no exception. As our very first liquid-cooled rides, we turned to styling to make sure the radiator on the V-Rod models became part of the design instead of an interruption to the flow of the eye. Premium Paint Up to two times thicker than the competition, custom quality paint comes standard on all Harley-Davidson motorcycles. Clearcoat layering up to five mils deep. Bigger metal flakes. Unique effects. Skimping simply is not in our vocabulary. - Contact The Internet Sales Department at 888-933-7674 or harley@usedharley-davidsonmotorcycles.com for more information. -
