

2014 Yamaha FZ-09

View this car on our website at usedmotorcyclesandparts.com/6831260/ebrochure

Our Price **\$4,995**

Specifications:

Year:	2014
VIN:	JYARN33E2EA001536
Make:	Yamaha
Stock:	U001536-WSE
Model/Trim:	FZ-09
Condition:	Pre-Owned
Engine:	0 cc
Exterior:	BLK
Mileage:	24,000

"This Yamaha is in Excellent overall exterior condition - 2014 Yamaha FZ-09THE ALL-NEW FZ-09Naked sport bike features a revolutionary 850cc, triple cylinder engine with a cross-plane crank which provides awesome engine torque and feel along with a unique pulse and sound. Its a slim design provides an overall light in weight and a nimble ride unlike any other. Key Features May Include: Introducing an all-new 847cc liquid-cooled, in-line 3-cylinder, DOHC, 12-valve engine with fuel injection. This FZ-09T engine combines advanced high tech components including YCC-T and Yamaha D-Mode, with a crossplane concept crankshaft to deliver an exciting, torquey and quick-revving engine character. This 3-cylinder engine features Yamaha's ""Crossplane Crankshaft Concept"" that provides linear torque development in response to the rider's throttle input. Among the advantages of the in-line 3-cylinder engine are: (1) linear torque development, (2) even firing intervals that provide smooth torque characteristics and a good feeling of power in the low to mid rpm range, (3) a light, slim and compact design, and (4) performance that combines the characteristics of both 2-cylinder and 4-cylinder engines. To reduce vibration and deliver a smoother ride, relays the data to the ECU, which instantaneously calculates the ideal throttle valve opening based on engine rpm and throttle opening, and then sends commands to a servo-motor actuator that moves the throttle valve which actively controls the intake airflow volume. This is a technology contributing to the rider's feeling of torque and controllability from the new 3-cylinder engine. Electronic fuel injection has been adopted to provide outstanding drivability. 12-hole injectors attached directly to the cylinder head deliver a highly pressurized spray of atomized fuel with droplets as small as a few microns. This enables high-precision injection directed at the valve skirts that contributes to optimum fuel combustion resulting in outstanding drivability and performance. The FZ-09T is equipped with Yamaha D-MODE (or ""Drive Mode"" variable throttle control system to allow the rider to choose the optimum engine character for their riding situation. The rider can choose at will from three throttle valve control maps (Standard Mode, ""A"" Mode, enhancing the overall narrow 3-cylinder design. - Contact The Internet Sales Department at 888-933-7674 or harley@usedharley-davidsonmotorcycles.com for more information. -"

Installed Options

Let us help you finance your next vehicle. Begin by clicking the "Get Approved" button above and enter your information completely before clicking submit. You can also print and fax us your completed application to 877-862-7872. *NOTE* - When filling out fields requiring a dollar amount, please enter simple numbers only without decimal point or any remaining digits. For example, if you were entering eight hundred dollars as a dollar value for any field, it should be entered as "800" (NOT \$800.00 or \$800). Only the simple expression is accepted on this form for numeric values. Please print and fax to 877-862-7872 if you have any trouble submitting this form. Our finance team will work to get you the best financing options available. Used Motorcycles And Motorcycle Parts For Sale (877) 862-7872.
