Vehicle Description

Most of us can only remember dreaming and wanting a Harley Davidson Night Train. At least I know I did as a young man.

Well, here is your chance too own one of the greatest Softails Harley-Davidson manufactured. We believe this Nigh rain to have a Engine hop up kit because she is fast. Drag specialty pull back drag bars for excellent handling. Which is complemented by its big beefy custom 16 inch front wheel. Matching sized front and rear tires that balances and makes this Harley Davidson night train ride like glass and provides great road absorption due to tires square setup providing more balance. Over the replaced skinny original 21 inch. Which gives the bike and the rider excellent handling. A stage one has been performed and done on this night train using Arlen Ness big sucker breather kit. Vance and Hines short shot slash cut exhaust that provides the classic Harley growl that screams king of the road. So throw your leg over and see what freedom feels like.
