Reviews:

* If driving a Porsche 911 disguised as a front-engine compact SUV sounds like the message that you want to send to the world, the 2015 Porsche Macan delivers that message lithe, loud and clear. Source: KBB.com

* Spirited performance even in base trim; athletic and engaging to drive; comfortable and quiet ride; highly customizable. Source: Edmunds
 * Introducing the 2015 Porsche Macan, the newest SUV in their lineup. The Macan is more than a SUV as it still bears the essence of a sports car in true Porsche fashion. The hood stretches through to the wheel arches, lending the front a broad and powerful presence reminiscent of the Porsche 917. With performance features such as Air Suspension including leveling system, ride-height adjust, and Porsche Active Suspension Management the Macan delivers even greater dynamic performance and comfort. Porsche Traction Management all-wheel-drive system with variable torque distribution delivers engine power precisely to the road by continuously monitoring driving conditions. With the choice of a 340hp 3.0L twin turbo V6 or 400hp 3.6L twin turbo V6 you can achieve maximum performance with moderate emission and fuel consumption. Inside sports car continues to blend with SUV as ergonomic architecture integrates you into the vehicle. The ascending center console shortens the reach between the steering wheel and the gear selector/control buttons. The interior boasts a luggage compartment volume of 17.7 cu.ft. With the flexible three-way rear bench seat folded down, this can be increased to 53.0 cu.ft. Porsche Communication Management is your central information and communications system including a navigation module with hard drive, radio, CD/DVD changer on a 7 high-res touchscreen. Advanced safety features include adaptive cruise control with Porsche Active Safe which regulates the speed of your car with that in front of you and brakes your vehicle Source: The Manufacturer Summary
