Exterior:	White
Engine:	3.0 Litre V6 Bluetech Diesel No DEF Fluid needed
Interior:	Black Cloth Cloth
Transmission:	Automatic
Mileage:	59,529
Drivetrain:	Rear Wheel Drive

We purchased this van from a local North Texas client who previously operated a premium tool business out of this van. The miles are accurate. Because family structure can change this van sat for several years. We spent \$5758.60 at a discounted dealer rate getting this van sound and road ready. We fixed what needed to be fixed and did not cut any corners. The best thing about this van is the fact that it is the last model year before the DEF systems became mandatory. Two great points, the miles are accurate and NO DEF SYSTEM TO MANAGE. Besides the mechanical repairs we did replace all six tires with NEW TIRES another \$1500.00 on top of mechanical repairs.

The Supreme Van Body is approximately 14 feet long by approximately 7 and 1/2 feet wide.

The side door on the passenger side has a low entry step into the van much like a recreational vehicle would. The rear double doors are 36 inches wide. The interior walls and roof are finished out very well. The walls are also insulated. The rear doors open to a folding heavy duty aluminum ramp. Immediately behind the front cab to van body locking sliding pass thru door is a heavy duty winch to pull items up the ramp. You can plug this van in to shore power with the 30 amp plug just in front of the side van body door. Besides the winch and multiple lighting options inside the van body this van has an auxiliary air conditioning unit above the rear cargo doors. The shelving inside could easily be un-bolted and removed. Please see the paint flake on the passenger front side of the hood.

The possible uses for this van are only limited by your imagination. It would be a great starting point for an off the grid camper. You could make it a mobile job site office, mobile showroom, toy hauler camper, mobile work shop.

The Van body is very secure. The side door has a door handle lock and a dead bolt lock and the rear door has a handle lock.
