More photos are available on I-95 Muscle's website.

This beautiful two tone 1975 F100 is just itching to find a new home! The paint job looks like a recent one with a nice metallic blue and white combination that looks great. Featuring a massive 460 cubic inch big block Ford with D3VF-A2A heads this big ol' truck has no problem exceeding the speed limit! An MSD ignition system and a Holley double pumper help supply fuel and spark giving this thing all the horsepower one needs to succeed. Four new shocks ensure a smooth ride along with a set of 275/60/15 Cooper Cobra tires wrapped around the American Racing AR23 aluminum wheels. Everything works in this truck to include all the gauges, and even the a/c is complete (although it may need recharged eventually) Most people will probably be surprised by the affordable price tag, so make sure you swing by to see this thing before it is gone! Financing is easy and trade ins are welcome.
