* Please read this before you schedule an appointment! This car was sold by Barrett Jackson back in 2009 with a Salvage / JUNK Michigan title announcement - we don't know if it was a clerical mistake, or it was reported by Barrett Jackson / General Motors due to heavy body modifications and potential liability and voided warranties. What does it mean? The car was built for a SEMA show by General Motors and the trunk / door jams / engine compartment were cleaned up - all the sealer joints were smoothed out and redone to make a very presentable show car. The whole car received a repaint. All the jams that usually have seam sealers applied now painted and smooth. The car comes with CLEAR CALIFORNIA TITLE, but due to potential liability, sold AS-IS with no recourse due to previous modifications and previous title branding. Priced accordingly. We didn't find anything wrong structurally with the car! Top-notch paint and insanely clean condition. All inspections are welcome! CASH ONLY, or you can get your own financing! PLEASE UNDERSTAND THAT this car might be impossible or very difficult to register in some states - do some research before you buy! Just to some it up - we have CLEAN / CLEAR CALIFORNIA title for the car, Carfax report shows JUNK title issued - Beret Jackson listing showed Salvage Title announcement - this means that it might be impossible / difficult to register in some states - third party inspections are welcome! Please do your own research before buying / viewing this vehicle! Normally, this kind of cars built by big car manufacturers stay with the manufacturer, but this one got sold somehow from under GM
