Beautiful baby bird! Red with red/white interior and white hardtop. The car went through a frame-off restoration in 2010. Pretty much everything was gone through including the engine, transmission. etc.

During the restoration there were a few things done to improve driveability and reliability. Power steering and power brakes were added, converted to 12V electrical and original carburetor upgraded to an Edelbrock carb. Excellent sounding stereo system with hidden speakers/amp. Paint has held up well with just a few blemishes.

The car runs and drives good. Power seat works great. It has a hardtop only(no softtop or soft top frame). Very nice wire wheels. Being sold to settle an estate. True miles unknown.
