We are proud to offer you this 1999 Porsche 911 Carrera with Many Upgrades for sale!

This 1999 Porsche 911 Carrera, like all 911s, is the most iconic German car ever to be produced. Powered by a 3.4-liter, flat six-cylinder engine, this fantastic sports car is just about as authentically “Porsche” as a 911 can be. This modified engine produces north of a well-engineered 320 horsepower and 260 lb-ft. of torque, all mated to a smooth and reliable six-speed manual transmission that handles just about anything thrown at it. This is quite helpful, given that this is a fantastically fun to drive car, made even more so by its rear-wheel drive layout and an array of modifications made to the car. This specific 911 has been fitted with a K&N Performance intake, performance suspension, and Sparco interior modifications to make the car lighter and give it a more “race car” feel.

To us, what’s outside the car is just as important as what’s inside it, and this sporty 911 is no exception to this rule. This sweet Porsche comes equipped with aftermarket 19” Savini wheels on Falken Sport tires, and the bodywork is wrapped in a wild and bright blue that only makes the car look that much speedier. And, with a few external modifications that include a front splitter and aftermarket taillights, this sports coupe is a looker from every angle, as well as prime for cruising every single one of America’s highways, back roads, and every piece of pavement in between them.

#### LIST OF FEATURES & UPGRADES:

- 3.4-Liter Flat H6 Engine
- 6-Speed Manual Transmission
