We are proud to offer you this 2016 BMW i8 with Upgrades for sale!

This 2016 BMW i8 is BMW's highly successful

attempt to create a hybrid supercar that competes in a different class of car than BMW's usual market. The result? A turbocharged three-cylinder engine that works in tandem with a hybrid electric motor to produce maximum performance at minimum emissions. These two components work together to produce 357 horsepower and 420 lb-ft of torque to complement the all-wheel drive system putting the power to the pavement. The performance figures that stem from these systems are staggering, getting the car to sixty miles per hour in just 4.4 seconds. As such, this car is fantastically fun on the track and exciting to drive on the roads. Inside, the i8 has been styled with all the opulent features that would be expected in a high-end supercar, including leather seats and dash trimmings, color-changing interior trim lighting, a high end sound system, and a touchscreen infotainment display with an array of options. All of these features, and many more on top of them, make this already-exclusive BMW even more unique and special.

To us, what's outside the car is just as important as what's inside it, and this eye-catching BMW i8 is no exception to this rule. This supercar comes equipped with 20" alloy wheels and wrapped in an electric lime green, which accentuates the absolutely wild lines that define the exterior of this car. The aggressive styling gives the car a dominating presence on the roads that can truly only be equated to the looks of a true supercar, and this machine is one of the most attention-getting performance vehicles on the market. This

performance coupe is extremely comfortable and relaxed on the roads, making it ideal as a fun daily driver or an exciting weekend car, but it truly shines as a high-performance supercar, unlike many others in its class. This fantastic i8 is doubtless a car to have, and with its low mileage and alluring packages, it's hard to ignore all that makes this car truly special.

LIST OF FEATURES & UPGRADES:

LIST OF FEATURES & OPTIONS:

1.5-Liter Turbocharged 3-Cylinder Engine

Hybrid Electric Motor

6-Speed Automatic Transmission
