We are proud to offer you this 2009 ASVE Model T Custom Rat Rod with a 5.0L Engine Conversion for sale!

This unique piece of automotive history is a completely custom rat rod that nothing can compare to. Built on an extended Ford Model T frame and powered by the EFI 5.0-liter H.O. V8 that was under the hood of all 5.0 Mustang Fox Bodies, there's almost no doubt that this car is capable of insanely fast launches and slamming power into the ground. The high-output exposed engine has a few modifications made to it to make it more functional and high performing, including long-tube headers that lead to a pair of catless side-exit exhausts, a side-mounted cold-air intake system, and a host of other small tweaks to give this beast more than enough power to play with.

To us, what's outside the hood is just as important as what's underneath it, and this fantastic combination of old and new is no exception. The exposed frame, body panels, and engine are in fantastic condition, and this car would attract plenty of attention at any show, drag strip, or driveway. Beyond looking terrific, though, this custom Model T has some visual modifications that double as useful performance changes as well, including Mickey Thompson drag radials, fully adjustable front coilover suspension, and Monroe rear shocks. Inside, if you can call it that, this incredible rat rod has leather seats, a Sunpro tachometer, and an aftermarket steering wheel that works surprisingly well with the look of the car. Altogether, there's no build like this in the world, and it's one that's ready to be driven.

[LIST OF FEATURES & UPGRADES:](#)
