We are proud to offer you this 2002 Ford F-150 SVT Lightning RARE True Blue Metallic for sale!

This 2002 Ford F-150 SVT Lightning is a meticulously maintained example of one of the most exciting trucks that Ford has ever made.

Equipped with a Ford-engineered, supercharged 5.4-liter Triton V8 that produces 380 horsepower and 450 lb-ft. of torque, the SVT Lightning is the unparalleled king of turn-of-the-century truck performance. This fantastic engine, paired with a four-speed automatic transmission, makes for one of the most exciting street performance trucks of all time. The interior is no less exciting than the rest of the truck, and it comes with SVT-stitched sport seats, a unique white instrument panel and gauge cluster, and a sliding rear window panel that completes the image of what can only be described as an unbeatable street truck.

To us, what's outside the truck is just as important as what's inside it, and this stunning example of the SVT Lightning is no exception. This specific F-150 comes standard with a short cab, stepside shortbed platform for maximum lightness as well as incredibly good looks. Additionally, the Lightning is equipped with throaty, heavily tuned SVT dual side-exit exhausts that make for one of the most entertaining features on the truck. Ford has also lowered the truck on SVT front suspension and balanced rear leaf springs to maximize the stability and handling performance of the vehicle, although another benefit of this decision is that it looks absolutely breathtaking.

Painted in the rarest SVT Lightning color, True Blue Metallic, this attention-getting machine comes equipped with star-pattern, five-spoke 18" cast aluminum wheels on Nitto NT555R street slicks that only add to the recognizability of this legendary piece of automotive performance.

LIST OF FEATURES & UPGRADES:

Supercharged 5.4-Liter Triton V8 Engine

4-Speed Automatic Transmission with Overdrive

Dual-Exit SVT Performance Exhaust

18" Cast Aluminum SVT Wheels

Nitto NT555R Street Slicks
