We are proud to offer you this 2013 Ford Focus ST with Many Upgrades for sale!

This 2014 Ford Focus ST is a fantastic example of a new generation of an iconic line of hot hatchbacks and rally cars. Given a direct injection, turbocharged 2.0-liter inline four-cylinder heart, this fantastic hatchback produces an output of 252 horsepower and 270 lb-ft. of torque to give it a previously unseen performance standard for street versions of rally vehicles. Such a powerful engine in such a rally-oriented car has to be mated to a six-speed manual transmission with an aftermarket shifter that provides massive amounts of fun in any gear and at any speed, so that's exactly what Ford has done. This Focus ST has also been given a Custom Performance Engineering cold-air intake, aftermarket blow-off valve, and an MBRP high-flow exhaust system that produces a note that perfectly matches the heritage and looks of the car.

To us, what's outside the car is just as important as what's inside it, and this superb Ford Focus ST is no exception to this rule. This hot hatchback comes with aftermarket 18" Touren alloy wheels and is finished in a sharp black paint scheme that looks absolutely fantastic on the car. And, with its modernized restyling of the previous generation of Focus ST, the car is extremely good looking, especially with its tuned performance suspension and aggressive lines. The interior of the Focus is also quite highly kitted, and it comes equipped with an infotainment display screen with Bluetooth and Navigation, "ST"-stitched leather bucket seats, and a high-quality audio system for occupants' listening pleasure. In essence, this car not only performs like the street version

of a rally car, it also looks quite a bit like one, too.

**LIST OF FEATURES & UPGRADES:**

Direct-Injection Turbocharged 2.0L I-4 Engine

6-Speed Manual Transmission

Custom Performance Engineering Cold-Air Intake

Aftermarket Blow-Off Valve

MBRP 2-Exit High-Flow Exhaust
