We are proud to offer you this 2017 Ford Mustang GT with Upgrades for sale!

Mustang GT with upgrades for sale.

This pristine Mustang GT 5.0 is a perfect example of high-performance American excellence, and it comes with a performance modification list that makes the car that much more special. The original 435 horsepower V8 has been modified with PMAS cold-air intake and a set of aftermarket headers, making this car even more musically inclined thanks to greater airflow. Additionally, this American beast comes equipped with a six-speed manual transmission, giving the driver the opportunity to hit every tick on the tachometer up to the redline. On the road, this Mustang GT is more than capable of coping with the power being produced under the hood. In the rear, the car puts every bit of the 400 lb-ft. of torque down on the pavement, and the MBRP cat-back exhaust is certain to attract the attention of everyone within earshot—or about half a mile. This may be an epic street-spec car, but it can most definitely hold its own on the drag strip.

To us, what's outside the hood is just as important as what's underneath it, and this sleek Mustang is no exception to that rule. The 2015 year model is the first year of the current generation of Ford's iconic pony car, and every inch of the aggressively-stanced profile looks better and faster than ever before. Painted in a subtle Shadow Black, lowered for better aerodynamics, and fitted with 18" Ford Performance alloy wheels, the thoroughbred American muscle car is designed to attract attention and look good from any angle. Inside, this Ford is extremely well-equipped with cloth bucket seats, a leather steering wheel, and a

touchscreen infotainment display that offers Bluetooth and a rear camera, making it a very well-balanced car for regular high performance use.

**LIST OF FEATURES & UPGRADES:**

5.0-Liter V8 Engine

Six-Speed Manual Transmission

Aftermarket Headers

PMAS Cold-Air Intake
