We are proud to offer you this 2012 Nissan

370Z Touring Sport Pkg Widebody with Many
Upgrades for sale!

This 2012 Nissan 370Z Sport Touring is the redesigned and entirely updated successor of the Japanese automaker's highly successful 350Z. Powered by a modified 3.7-liter V6 engine that produces 332 horsepower and 270 lb-ft. of torque, this import is the quintessential sports car for all types of roads. The engine has been modified with an Administration long-tube cold-air intake, performance downpipe and midpipe, and a single-exit EmpremeTi exhaust system that produces a fantastic note and, thanks to the crackle and bang tune, spits out a tongue of flame with the right rev. This engine is mated to a six-speed manual transmission that provides every bit of the authentic driving experience. This car also comes with a limited-slip differential, making it both more exciting in the corners and consistently manageable on the road. This is more than a little bit important when it comes to delivering the power under the hood to Nissan's rear-wheel drive system.

To us, what's beyond what makes the car function is just as important as what's under the hood, and this sweet Nissan 370Z is no exception to this rule. This sporty import is fitted with 19" Adohan multi-piece forged wheels, lowered on aftermarket coilovers, and painted in a mesmerizing black, a color that is subtle yet incredibly exciting to look at. And, with a full aero build attached to it, including a widebody kit, Street Aero diffuser, and aftermarket front lip, this car looks every bit as exciting as it is to be inside of, making it a

worthy continuation of Nissan's beloved "Z" line
of sports cars.
