We are proud to offer you this 2010 Chevrolet

Corvette Cammed with Many Upgrades for sale!

This 2010 Chevrolet Corvette C6 is part of the sixth generation of the most iconic American sports car ever to be produced. Under the hood resides a fully built 6.2-liter V8 engine that produces 430 horsepower and 424 lb-ft. of torque, making this high-performance car the epitome of the expectation for American muscle cars: powerful, fast, and reliable. Some of the many modifications made include a performance camshaft, ported LS3 heads, and a fast RHS LSXR Intake Manifold, among so many other modifications. With the engine paired to a six-speed automatic transmission with paddle shifters that provides every bit of raw control that a true enthusiast craves, this Corvette is a wild ride every single time you turn the key in the ignition. And, with a rear-wheel drive system for power delivery, there's no limit to the things that can be done behind the wheel. Better still, the aftermarket quad-tipped performance exhaust system produces the engine noise of a thousand iotas of pure, undiluted power being discharged violently into the world. In other words, there's hardly a better sound on the planet.

To us, what's outside the car is just as important as what's inside it, and this iconic Corvette is no exception. This striking sports car has been designed from the ground up to exhibit a progressively more modern take on the original 'Vette, and this specific example embodies that belief wholeheartedly. This specific Corvette has been painted in a deep black, and it comes equipped with a set of 18"/19"

American Racing alloy wheels that simply command the attention of anyone who happens to be near the car. And, with its instantly- recognizable silhouette, this coupe is a vision of what can only be considered to be a masterpiece of an American icon.

LIST OF FEATURES & UPGRADES:

6.2-Liter LS3 V8 Engine
6-Speed Manual Transmission
Aftermarket Performance Cam
Ported 0821 LS3 Heads
