**BEGIN!**

We are proud to offer you this 2004 Chevrolet Corvette Z06 with Upgrades for sale!

This 2004 Chevrolet Corvette C5 Z06 is a member of the fifth generation of the most iconic American sports car, and this specific example is a pristine specimen of the extremely powerful and very collectible Z06 line. Under the hood resides a 5.7-liter LS6 V8 engine that produces 405 horsepower and 400 lb-ft. of torque, making this high-performance car the epitome of the expectation for American muscle cars: powerful, fast, and reliable. This engine has been equipped with long tube headers and a Breathless Performance Vortex ram-air intake to maximize airflow into the power plant, which works in tandem with a six-speed manual transmission designed to handle every ounce of output the engine can produce. And, with a rear-wheel drive system for power delivery, the Corvette is an absolute thrill to drive. Better still, the high-flow Borla exhaust produces the engine noise of a thousand iotas of pure, undiluted power being discharged violently into the world. In other words, there's hardly a better sound on the planet.

To us, what's outside the car is just as important as what's inside it, and this iconic Corvette is no exception. The striking sports car has been designed from the ground up to exhibit a progressively more modern take on the original 'Vette, and we take great care to restore and maintain a condition as close to brand-new as possible. This specific Corvette has been painted in a shimmering Torch Red, and it comes equipped with a set of 17" Front / 18" Rear alloy wheels that simply command the attention of anyone who happens to be near the car. With its instantly

recognizable silhouette, this coupe is a vision of what can only be considered to be a masterpiece of an American icon.

**LIST OF FEATURES & UPGRADES:**

5.7-Liter LS6 V8 Engine  
6-Speed Manual Transmission with Overdrive  
Long-Tube Headers  
Dual Exit High-Flow Borla Exhaust
