We are proud to offer you this 2000 Ford F-150 SVT Lightning for sale!

This 2000 Ford F-150 SVT Lightning is a meticulously maintained example of one of the most exciting trucks that Ford has ever made.

Equipped with a Ford-engineered, supercharged 5.4-liter Triton V8 that produces 380 horsepower and 450 lb-ft. of torque, the SVT Lightning is the unparalleled king of turn-of-the-century truck performance. This fantastic engine has been fitted with an aftermarket AiRaid cold-air intake and paired with a smooth four-speed automatic transmission, making for one of the most exciting street performance trucks of all time. The interior is no less exciting than the rest of the truck, and it comes with SVT-stitched sport seats, a unique white instrument panel and gauge cluster, and a sliding rear window panel that completes the image of what can only be described as an unbeatable street truck.

To us, what's outside the truck is just as important as what's inside it, and this stunning example of the SVT Lightning is no exception. This specific F-150 comes standard with a short cab, stepside shortbed platform for maximum lightness as well as incredibly good looks. The front has also been given a minor facelift with an aftermarket hood and grill, which add a level of aggressiveness that works perfectly with the looks of the truck. Additionally, this Lightning is equipped with an aftermarket side-exit exhaust that makes for one of the most entertaining features on the truck. Ford has also lowered the truck on SVT front suspension and balanced rear leaf springs to maximize the stability and handling performance of the vehicle, although another benefit of this

decision is that it looks absolutely breathtaking. Painted a shimmering Raven Black, this attention-getting machine comes equipped with 18" SVT cast aluminum wheels that look brilliant against the midnight paint scheme and add to the recognizability of the truck.

LIST OF FEATURES & UPGRADES:

Supercharged 5.4-Liter Triton V8 Engine
