We are proud to offer you this 2018 Chevrolet Camaro SS with Upgrades for sale!

This 2018 Chevrolet Camaro SS is one of the most modern examples of what American muscle cars are capable of in both performance and design. Under the hood resides a 6.2-liter V8 engine that puts out 455 horsepower and 455 lb-ft of torque, sending the power through an eight-speed automatic transmission with paddle shifters to the rear wheels. The resulting power delivery enables this awesome muscle car to achieve a manufacturer-stated 0-60 time of 4.0 seconds flat.

This engine has been modified, however, with a Roto-Fab cold-air intake and aftermarket Borla performance exhaust system that produces one of the most earth-shattering notes ever recorded.

Altogether, this car performs and sounds exactly as a true American muscle car should.

To us, what's outside the engine bay is just as important as what's inside it, and this violent Camaro SS is no exception to this rule.

Styled to pay homage to previous generations of this iconic muscle car but made modern in almost every way, this aggressive piece of performance is one of the best-looking Camaros to date. The already dominant lines of the car are made more powerful by the GM Performance spoiler perched at the rear of the car, while the vented hood and 20" Chevrolet alloys work in tandem with the Nightfall Gray Metallic paint finish to give this Camaro SS a truly imposing appearance to match its performance. The interior follows this same pattern as well, coming from the factory equipped with stitched leather sport seats, a leather "SS" sport steering wheel, and a touchscreen infotainment

system with Bluetooth, navigation, and rear camera among many other amenities. Between all of these features inside and out, this car is worth every single penny of its price and offers an unrivaled driving experience.
