We are proud to offer you this RARE 1994 Ford F-150 SVT Lightning 2 Dr STD Standard Cab SB for sale!

This amazing first-generation performance truck

This amazing first-generation performance truck is a Ford-engineered icon unlike any other. Powered by a 5.8-liter V8 engine that produces 240 horsepower and 325 lb-ft of torque without modification, this truck offers a surprising amount of excitement behind the wheel. Upgrades to the engine include Bassani long-tube headers, an MSD distributor, MSD spark plug wiring, and a single-exit performance exhaust. With all of these upgrades, this truck produces even more horsepower and offers even more excitement than a stock example might. Because of these upgrades, this truck is a one-of-a-kind performer that can't be competed with.

To us, what's outside the truck is just as important as what's inside it, and this stunning example of the SVT Lightning is no exception. One of only 1,165 trucks painted in a sharp Ultra Red, this extremely rare truck looks incredibly aggressive, which is only aided by the low SVT suspension and 17" SVT alloy wheels. The interior offers a similar amount of excitement as the exterior. Equipped with plush cloth seats that feature "Lightning" stitching on the headrests, an aftermarket Kenwood CD player with AUX connectivity, and a premium sound system, this truck is incredibly well equipped inside and out.

LIST OF FEATURES & UPGRADES:

5.8-Liter V8 Engine

4-Speed Automatic Transmission

MSD Distributor

Bassani Long-Tube Headers

Lightning Intake Manifold

MSD Spark Plug Wiring

Single-Exit Performance Exhaust
