Vehicle Description

Found these for the folks whose youngin is in between the entry level and a full sized quad. Numerous parents have told us they simply can't find one that fits their child. Most youth quads are too tiny, or WAAAAAYYYY huge! These seem to fit that in between size everyone is looking for. Plus, when your youngin gets in a pinch, it has reverse, so he can just back out. This quad has the fast and fat look that all the kids are chasing, but in actuality you can govern it down to 4 miles per hour!

It's Florida, so get out in the sun and have some fun! Spring, Summer, Fall, and Winter... in Florida...everyday is a good day for an adventure. Enjoy a type of fun only realized spending time with the family outside and the roar of a gas powered fun machine.

This streamlined vehicle is powered by a dependable 4 stroke 110cc motor. (You don't have to mix the gas and oil.) The durable double A-arm front suspension, single rear suspension, drum/disc brake, and improved engine design will ensure a ride that is a cut above.

This quad is lightweight and low maintenance, making this quad perfect for casual yard, field, and trail riding. Emphasizing safety and consideration, this youth quad is equipped with the most helpful safety features available. Parents can rest easy knowing that this quad comes with a wireless remote shut off switch and a variable speed control box. The unit can be throttled back to as slow as 4 MPH or opened up to rip and roar. It has a foot brake, automatic transmission and electric start. This quad also comes with luggage rack on the front and rear, allowing the rider to carry a little extra weight to make sure you have everything you need while riding. This high quality ATV will provide an abundance of fun & memories!
