We are proud to offer you this 2015 Volkswagen GTI SE with Upgrades for sale!

This 2015 Volkswagen Golf GTI SE is a high-output example of the seventh generation of the most iconic hot hatchback of all time. With a turbocharged 2.0-liter engine under the hood that produces 220 horsepower and 258 lb-ft of torque, this car is a prime example of a from-factory performance machine that needs nothing to be a track-ready monster. The power is put through a six-speed DSG automatic transmission and delivered through a front-wheel drive layout to the road. Just because this car needs no upgrades to be fun to drive, however, doesn't mean it hasn't received them. Under the hood, this hot hatch has been equipped with a carbon fiber APR cold-air intake, an APR downpipe, and a few other upgrades that help boost the power up significantly.

To us, what's outside the car is just as important as what's inside it, and this quick GTI is no exception to this rule.

This hot hatch is finished in a bright Pure White that contrasts perfectly with the aftermarket 18" Regen5 R35 alloy wheels that have been equipped to the car. And, with the addition of lowered coilover suspension and a hatch-mounted carbon fiber spoiler, this car looks like it would be equally at home on a track or at a car show, and there's no doubt that the modifications under the hood imply that very same thing.

[LIST OF FEATURES & UPGRADES:](#)
