We are proud to offer you this LOW MILEAGE 2004 Ford Mustang SVT Cobra for sale!

This 2004 Ford Mustang SVT Cobra is a

beautifully preserved time capsule of early aughts American performance. With an SVT-supercharged 4.6-liter V8 engine under the hood that produces 390 horsepower and 390 lb-ft of torque, this car is one of the first cars to come from the factory with modern performance upgrades under the hood. The power that is produced from this monstrous engine is sent through a six-speed manual transmission with a Steeda short-throw shifter to the rear wheels, offering drivers the opportunity to experience what a true muscle car can deliver. This performance machine also has a few other surprises attached to its power plant, including a Tunable Inductions cold-air intake and an SLP performance exhaust system that makes the already incredible noise from the engine even more brilliant.

To us, what's outside the engine bay is just as important as what's inside it, and this raw SVT Cobra is in no way an exception. Sitting low on SVT suspension and fitted with 17" SVT alloy wheels, this aggressive muscle car is finished in a deep black color that makes this car have an imposing presence and adds to the aggressiveness of this machine. What this Mustang also offers, however, is versatility. The power under the hood and extensive suspension tuning by SVT ensures that this car is a performance machine, but the soft convertible top also enables this car to offer its occupants the ability to enjoy a comfortable, top-down cruising environment that few muscle cars can offer today. There's no car on the market today truly like this one, making it in every way worthy of the Cobra badges that indicate just how special it is.
