We are proud to offer you this 2010 Volkswagen GTI Bagged with Many Upgrades

for sale!

This 2010 Golf GTI is a member of the sixth generation of the popular German hot hatch. With a turbocharged 2.0-liter engine that produces 210 horsepower and 207 lb-ft of torque under the hood, this car is one of the greatest hot hatchbacks to hit the market.

The power is pushed through a six-speed manual transmission to the front wheels, offering the driver an amazing level of control over the power delivery. With the addition of an aftermarket twin-tip exhaust system, this car doesn't only have good power output, it also produces an amazing noise. As a car, then, this GTI is truly unparalleled in terms of driving experience and versatility.

To us, the upgrades attached to a car are just as important as what makes it fun to drive, and this modified GTI is no exception to this rule. This hot hatch comes equipped with 18" multi-piece ESR alloy wheels which match the Candy White paint finish. The look of this car, however, is completed by the VERA Air Management bag suspension that enables the car to be slammed to the ground for some of the greatest fitment on any hot hatchback. Aired all the way out, this GTI's wheels are perfectly tucked into its fender flares, making it an incredible show car and stance built. Inside, the GTI has adjustable cloth bucket seats, a touchscreen infotainment system with Bluetooth compatibility and phone connectivity, as well as the air suspension control unit. In a nutshell, this car is ready to go for anything the road can offer it.
