We are proud to offer you this prime example of a bone stock 2012 Subaru Impreza WRX

STI for sale!

This 2012 Subaru Impreza WRX STI Limited is a Japanese car culture icon in just about every way imaginable. Famed for its all-wheel drive platform attached to a turbocharged 2.5-liter four-cylinder engine, this Japanese rally legend is a high-performance car without modifications. However, it's extremely difficult to find one of these cars without any upgrades. This one, though, is one of the rare examples that has been left untouched in just about every way imaginable. The 305 horsepower, 290 lb-ft of torque engine has only 85,000 miles on it, and despite being completely stock, it offers more than enough power to be incredibly fun to drive. This power is sent to all four wheels through a coveted six-speed manual that makes the car even more authentic and more fun to drive.

To us, what's outside the car is just as important as what's inside it, and this WRX STI is no exception to this rule.

This powerful import comes equipped with the factory 18" STI alloy wheels, and the car is finished in a deep Plasma Blue Pearl, which looks absolutely fantastic on the car. The interior is in just as good condition as the rest of the car. Fitted with leather bucket seats, an infotainment system with Bluetooth, navigation, and phone connectivity, and equipped with all of the selectable driving mode controls that Subaru offers with the car, this performance beast is the perfect car for fast driving, regular daily use, or anything in between.
