We are proud to offer you this 2013 Ford Mustang GT Premium Whipple Supercharger with Many Upgrades for sale!

This Mustang GT is a performance beast unlike any other muscle car on the market today! Powered by a 5.0-liter V8 engine that produces 420 horsepower and 390 lb-ft of torque from the factory, this American muscle car is a purebred performance machine that has been extensively upgraded to the next level. With over \$30,000 invested into building the car, almost every feature of this Mustang has been taken to new heights, especially the drivetrain. Fitted with a 2.9-liter, third generation Whipple stage one supercharger kit, a Foster SC Mods stage 2 whine kit, a Fore Innovations L2 fuel system rated at 1200 horsepower, and plenty of other upgrades, this beast lays down serious power and produces a noise unlike anything else. The power is put through a Tremec T-56 Magnum XL six-speed manual transmission, along a one-piece aluminum driveshaft to the rear wheels, making for a truly American muscle car driving experience that simply can't be matched by any other car.

To us, what's outside the engine bay is just as important as what's inside it, and this powerful muscle car is no exception. The aggressive lines of the exterior are complemented by a shining Performance White and 20" American Muscle alloy wheels. The car has also been lowered on SR Performance lowering springs with 2013 - 2014 GT500 shocks and struts, and the exterior has been extensively modified with a TruFiber 3-inch cowed hood, Roush side splitters, an MMD V2 chin spoiler, and

much more! In the interior, this muscle car is equipped with California Special leather and alcantara seats, a leather steering wheel with carbon fiber inserts, and a Shaker premium sound system with Microsoft Sync. With all of these features inside, outside, and under the hood, this awesome Mustang GT is sure to impress in every way imaginable!
