Exterior:	Light Yellow
Engine:	5.7L 350 V8
Interior:	Light Buckskin Cloth
Transmission:	Automatic
Mileage:	56,000
Drivetrain:	Rear Wheel Drive

Vehicle Description

Affordable classic! Light yellow exterior with light buckskin cloth interior. 350 V8 with automatic transmission. I got the car from the second owner who purchased the car from the original female owner in 1999 with 48k miles. When he bought the car he had it repainted in the original color due to fading. He decided to go the hot rod route and have the engine pulled and upgraded with an Edelbrock kit that included aluminum heads, aluminum intake, cam, and carburetor. The car also has smog legal headers, smog pump, and a catalytic converter to make it smog legal.

The body is incredibly clean as well as the original interior with a dash with no cracks. Original AM radio works great. The previous owner also added the Torq-Thrust rims which look great. The car was sold new at Fitzpatrick Chevrolet in Concord, Ca. During those upgrades he did remove the underhood A/C components. I do believe the 55k miles is accurate as the car has been in storage. A couple of years ago he pulled the car out of storage and took the car to his mechanic to have it checked out. It ended up having a head gasket leak due to sitting. He had the head gaskets changed as well as a tune-up and had the transmission rebuilt (receipts available). The car runs and drives excellent. Clean California title in hand. The best part is you probably won't park next to another at your next car show!
