This camper is a 2005 Keystone Montana, approx 34ft and the UVW is approx 10300LBS.

We completed an inspection on this RV and the following shows the results of our findings:
Text 864-245-0730 to text or call the store 864 845 1484.

There is roof AC unit that works.
The LP system works, we had to check the system with one of our LP bottles since the LP bottles are missing on this camper.

The Furnace Heat, Water Heater and Stove top, function with our LP parts

Li parts.

The microwave turns on, although we did not cook anything in it.

The water system works.

The fridge works.

The electric fireplace works and makes heat.

There is a place for a stackable washer and dryer.

The awning works as you can see in the photos but the awning material is the original and really needs to be replaced.

3 of the tires have 2015 date codes, and the 4th tire, we could not find a date code.

If you do not see it, or I do not show it functioning or it is not listed in this description, the I did NOT check it, it is missing or similar.

There is an odor. I think that it is from a previous smoker, it is not too bad but still def odor, acceptable to most people.

The only items checked are listed or shown in photos.
