Additional pictures are posted on I-95 Muscle's direct website.

On the surface, this looks like your average RT Charger. But if you pulled up on this thing in Mexico... You'd be in for a rough time! This 2012 Dodge Charger has a 5.7L Hemi attached to it's 2.9 litre Whipple Supercharger, not the other way around. It has a 5 speed automatic transmission which not only shifts faster than a manual, but will also allow you to enjoy yourself on the plush black leather interior. Speaking of interior, considering this is the only place you will be and see while driving this beast you would probably want it to be to your liking and desire. With a 8.4" double din playing through a fully equipped Beats By Dre audio system and sub from the factory! A new set of staggered 20" wheels in the front and 21" in the rear wrapped up with all the Nitto meat you can fit in the wheel well. Did I mention this Supercharged Hemi still maintains the factory A/C and it blows ice cold! Financing is easy and trades are welcome, so call, click, or come by and get this steal on a supercharged, non-hellcat charger to stand out before it's gone!
